27th January 2022

Dear Parents,

I have been in contact with the outbreak management team this afternoon due to the number of cases in Fox class. Cases continue to rise across the school, I would therefore ask you to continue to be cautious regarding any signs of illness.

If someone in the household tests positive, other members may attend school but will need to take an LFD test daily for 7 days.

Self-isolating and taking a test

If your child has any of the following symptoms,

- **a high temperature** - this means you feel hot to touch on your chest or back (you do not need to measure your temperature)
- **a new, continuous cough** - this means coughing a lot for more than an hour, or 3 or more coughing episodes in 24 hours (if you usually have a cough, it may be worse than usual)
- **a loss or change to your sense of smell or taste** - this means you've noticed you cannot smell or taste anything, or things smell or taste different to normal

As I stated previously, not all children are showing these three symptoms, others reported to us include headaches, tummy aches and sneezing. If you are concerned, please seek medical advice or access a test before sending children into school.

If you have any concerns, please do not hesitate to contact us. I will continue to keep you updated and share any further advice from Public Health England.

Thank you for your continued support and understanding.

Yours sincerely,

Jennie Müller

Headteacher
